

31 May 1968

Mr. Maury:

Bob Bannerman called regarding S. 1035. He said in reviewing the DOD letter on the bill he noted that they had made some suggestions for a possible fall back position with legal justifications. Bob wonders if we shouldn't have a small task force take another look at the bill to determine whether we could suggest alternatives (short of complete exemption) which we might be able to live with in the event the Committee is not disposed to grant the Agency full exemption. I told Bob that certainly this was worth considering and that I would discuss it with you and John Warner and be back in touch.
